Coded Characteristics

1. In the upper left corner, you can check that you have the right NSN. Its number will be displayed here.
2. Centered in the upper part of the screen, you will have the Owner, the date it was assigned and the date of its past updates.
3. You can keep navigating through your previous results by clicking on the right or left arrow on the right side of the screen. It will take you to the next or previous result in your list.
4. You also can pin your NSN or share it
5. All the basic information about the NSN Identification & its Classification data are in the first box on the left.
6. Right below, you will find the user countries.
7. And opposite side, you will have the decoded and or coded characteristics. This is also where you'll find packaging data.

You will arrive on the screen of NSN details.

8 (8) Each of these sections can be collapsed to make more room to what you are interested in. Or make more room for the text information.

11 (11) Clicking on the NCAGE of a reference will guide you to the information related to the provider.

9 (9) In the middle, you have your NSN references.

8 (8) Your exact match from your search text will be highlighted

12 (12) You still have the ability to further filter your references. You can also sort your references. Just click on the expand icon again to retrieve this section.

7 (7) (Callout pointing to the Coded Characteristics section)

8 (8) (Callout pointing to the Decoded Characteristics section)

12 (12) (Callout pointing to the Filters and Sort buttons)

8 (8) (Callout pointing to the Back and NSN fields)
